CERTIFICATIONS: NATM (National Assoc of Trailer Manufacturers) COUNTRY OF MANUFACTURE: Proudly built in Cincinnati, OH USA

BETTER QUALITY:

Our Black Rhino Aluminum Trailers are designed with durability and long-term use in mind. Each of our trailers are constructed with 6005 grade tubular aluminum by expert welders using the highest grade [welding wire](#) available. Most of our trailers utilize a "Wishbone" style tongue/A-Frame design for strength and durability. You won't find structural components and cross-members built from angle or channel like many other manufacturers. Plus, the components (including axles, wheels, tires, and electrical) on our Black Rhino Aluminum Trailers are all second to none. It's this combination that will give you confidence and assurance that the trailer will last for years to come.

Our "Full Contact" Design

As mentioned above, we use tubular aluminum for all structural components of our trailers, which adds strength to the trailer and provides 4 welds at joints versus 2 or 3 with angle or channel. So, when you take closer inspection of our trailers, you'll be happy to notice our "Full Contact" manufacturing and design. Simply put: **We weld everything!** Our expert welding technicians take their time to ensure that each and every point of contact is welded with precision. These additional welds create a stronger, more durable aluminum trailer that can easily hold up to the constant abuse that most trailers endure, and we think the additional peace of mind is well worth it.

Easy Loading and Unloading

All of our [Black Rhino Aluminum Trailers](#) are designed with easy loading and unloading in mind. Our heavy-duty fold-down ramps makes loading and unloading cargo or equipment a breeze, while our high quality torsion or leaf spring axle options from Lippert, Dexter, or Terran ensure that you have a smooth ride once loaded and ready to go. Plus, all our trailers come standard with 2" or 2-5/16" sealed coupler, so you can tow your trailer with your vehicle for peace of mind that it is attached securely.

Standard Features and Options

To LIVE & WORK AGGRESSIVELY, a quality trailer that will endure the rigors of hauling ATV's, UTV's, Motorcycles, equipment, vehicles, lawn mowers and anything else you can think of, is essential.

We take pride in building trailers that will go the distance with you.

A Black Rhino Trailer is built for the long haul. It is easy to maintain and will **withstand many years of use, even in the difficult Northern climates.**

Standard features that are considered upgrades on many other brands of trailers. With a variety of trailers to suit your needs, our designs have extra features and options to make your hauling easier.

You can choose [Landscape](#) or [Utility Trailers](#) with the traditional perimeter top rail, as well as with the popular "Rail Delete" option. Unlike many other manufacturers our "Rail-less" trailers have a stronger main frame structure to give you a trailer with the versatility of a traditional flat deck but with the quality construction you need.

NOTICE:

All information listed on this unit page is provided to the best of our knowledge and belief at the time of listing. No guarantees or warranties, expressed or implied, are made regarding the accuracy or completeness of this information. Buyer is responsible for verifying all details prior to or at the time of purchase.

Advertised sale price is for the trailer only with payments made by cash, check (personal, business, certified) or ACH payment. PayPal is accepted with a fee of 2.8%. At time of purchase Sales Tax will be calculated and added in accordance with the WI State Law. If applicable

Registration/Titling/Service Fee will be added to the purchase agreement.

When does a trailer require Registration/Titling/License/Service Fee in WI?

In accordance with the Wisconsin State Law, a trailer over 3,000 lb. GVWR is required to be registered. Registration/License cost is dependent on the trailer's GVWR and the month in which it is registered. Titling cost is \$214.50. Service Fee is \$179 which is a fee for dealer document processing, this fee is not negotiable.

Please call for availability or to reserve a trailer.
