Description

DESCRIPTION
Our high-capacity light material/snow bucket is designed to handle snow and other materials efficiently. Built with durability in mind, its sturdy steel construction and reinforced design ensures long-lasting performance. The weld-on cutting edge makes short work of packed snow and other debris, while viewing slots improve visibility for precise operation. Whether you're a homeowner with acreage, landscaper or a professional snow removal company, this skid steer bucket is your go-to solution for cleanup.

Details:
Available in 84- and 96-inch bucket widths
3/16-inch-thick steel body provides exceptional durability and longevity in harsh winter conditions.
3/4 x 6-inch weld-on cutting edge with holes efficiently scrapes compacted snow and other light materials
2 x 4 ½-inch viewing slots enhance operator safety and precision by providing a clear line of sight to the work area.
Radius kick-out plate strengthens the bucket structure while facilitating quick and complete emptying of materials.
Reinforcement tube across the back of the bucket increases overall rigidity, allowing for heavier loads and extended service life.
84 Inch Light Material/Snow Bucket Shown.
Warranty: 6-month warranty
