Description

Product Details

Extreme conditions demand cutting-edge innovations. The long-time industry favorite, powder-coated steel DXT plow delivers the reliability you need to last. Engineered for heavy-duty snow and ice management, the fully featured BOSS Steel DXT is your ultimate tool to tackle all things snow and ice. The patented dual-trip design offers the best of both worlds, combining the features of trip-

edge and full-trip systems for enhanced protection. This technology provides high trip protection for larger obstacles and low trip protection for smaller ones, making it the perfect solution for tackling everything from manhole covers to frozen snowbanks. Outfitted with a long-lasting, durable base angle for extended wear resistance, built-in curb guards, and a patented snow catcher, the DXT is engineered for top-tier performance. Its trip-edge base acts as the cutting edge until it reaches the wear point, after which it can be easily replaced to extend the plow's life. Perfect for keeping paths clear when Mother Nature strikes, it ensures you're prepared to tackle any winter challenge.

- Cold Front Technology - Cold Front Technology with a newly designed connector, merging Power/Ground cables and Control wires into one.
- SmartTouch+ - Offers immediate, responsive control with a familiar design, eliminating delays and simplifying your plow operation.
- SL4 with ClearBeam - The low-profile aluminum housing and ClearBeam feature provide exceptional downward illumination, while built-in turn signals, park, warning, and accent lights enhance safety and style.
- OPTIONAL D-FORCE - Improve your backdragging abilities with D-Force!
- SMARTSHIELD PAINT - Sets the standard for supreme quality, corrosion protection, and lasting durability.
- 2 Year Limited Warranty
