Price: $7,499.00

Description

The all-new 675NK harbors a purpose-built 675cc inline triple delivering 95 hp at 11,000 rpm and 51.6 lb-ft of torque. But it’s not just about numbers—it’s about character. This engine revs quick, pulls hard, and delivers a broad torque curve that makes every throttle input feel like a decisive

move. A quickshifter makes upshifts effortless. The KYB suspension is fully adjustable. J.Juan brakes with twin front discs, traction control, and ABS keep you confidently in command. The 5" TFT dash includes TPMS and RideSync® integration. And yup, lb-ft torque for lb-ft torque, you can’t beat the value. Twist the throttle, and you won’t need any more convincing.
