Why Choose a Mini Dump Series Trailer?
Overview
The Midsota Mini Dump Series is a small dump trailer built for those who need a reliable and powerful hauling solution in a compact design. With up to a 3,500-lb GVWR, this trailer is perfect for light-duty projects around the house, farm, or homestead such as landscaping and residential clean-up jobs. Its hydraulic power-up and down system allows users to dump materials efficiently, while the 2-way tailgate adds convenience by enabling different unloading methods.
Available Models
This mini dump trailer is available in a 36” x 5’ size with in both 2,000 and 3,500-pound GVWR, providing an optimal balance between capacity and maneuverability. Whether you're hauling gravel, mulch, or debris, this trailer is built to handle your needs while remaining easy to tow behind a small vehicle.
Standard Features
The Mini Dump Series comes equipped with a 51” x 60” top bed measurement and a 36” x 60” bottom bed measurement, offering a sturdy build with an 18” side height to accommodate various materials. The 14-gauge floor and sides ensure durability, while the 2,000-lb lifting capacity

supports efficient dumping. A harness connects to the tow vehicle battery, allowing for simple power access, and a 1K bolt-on swivel jack with a wheel provides stability during loading and unloading. This small dump trailer includes an industrial-grade polymer finish for long-term durability and is backed by a 5-year frame warranty for peace of mind.

Options

For enhanced functionality, buyers can customize their Mini Dump Series with aluminum fenders, a battery kit, and a light kit to improve visibility and safety. These options allow users to tailor their mini dump trailer to fit specific hauling requirements while maintaining the same compact efficiency.
