Price: $7,650.00

Description

The PJ P8 22’ heavy-duty equipment trailer with a 14,000 lb GVWR and upgraded fold-up gate is built for folks who need a trailer that can handle serious work day in and day out. That 22-foot deck gives you plenty of room for mowers, skid steers, and equipment, while still being manageable to get around tight job sites. The heavy-duty fold-up gate is built stronger than a standard gate, so it stands up to constant loading without bending or wearing out. With the higher 14K capacity, it’s a great fit for commercial landscapers who use their trailer every day and are tired of blowing out tires or overworking a lighter 10K setup. It’s got the kind of solid frame and components PJ is known for, pulls steady behind the truck, and is built to take the kind of daily use that comes with making a living off your equipment.
