Description

This is our UTV trailer. It is 8.5 feet wide by 16 feet long sitting on tandem 3500# torsion spread axles with brakes on both axles and nice premium wheels. We added 6 inches of extra height which gives you 7 feet 6 inches at the back door and 7 feet 10 inches inside. Lots of room to get your side by side in, plus this one as 2 tone paint, and a 110 volt power outlet inside and a overhead cabinet. It has side track in the floor with adjustable d-ring system, a 24x36 tint sliding window for egress so you can camp in the trailer safely, the very popular TPO coin flooring, a white ceiling, an RV style side door and a rear spoiler with loading lights for loading up at night.
