Description

Pro Series Telescopic Dump Trailer

- GOOSENECK

The Sure-Trac® Pro Series® Telescopic Dump Trailer is engineered to handle the toughest jobs with ease, making it the ideal solution for contractors and professionals who demand durability and efficiency. Designed to work as hard as you do, this trailer comes equipped with a range of features that streamline your day-to-day operations, saving you both time and effort on the job site.
One of the standout features is the telescopic front hoist, which provides a more direct lifting force than traditional hydraulic systems. This allows for a smoother and more controlled dumping action, making it easier to unload materials, especially heavier loads. The telescopic hoist also reduces the stress on the frame and offers a longer-lasting, more durable performance.
