Description

Why Choose a FBGD Series Deck Over?
Overview
Combining everything that was loved about the CTO, ETO & STO, the new Midsota FBGD Series Deck Over is built perfectly to accommodate the needs of the hauler. With a high strength fabricated I-Beam frame, nothing can get in your way of having a safe & secure haul. Built to be better than the rest.
Available Models
The Midsota FBGD Series Deck Over trailer is available in multiple configurations designed to match specific hauling requirements. Trailer sizes include 102" widths ranging from 22' up to 30' in length (102" x 22', 102" x 24', 102" x 26', 102" x 28', and 102" x 30'), offering flexibility to accommodate various cargo sizes. All models come with a Gross Vehicle Weight Ratings (GVWR) of 15,400 lbs., allowing customers to have a trailer that aligns perfectly with whatever they need to haul, big or small.
Standard Features
Engineered for both heavy-duty durability and ease of use, starting with a 2-5/16" Adjustable Demco Coupler that allows for flexible, secure hookups across different vehicle heights. It prioritizes safety and low maintenance with Self-Adjusting Electric Brakes that automatically optimize stopping power, while No Exposed Wiring ensures the electrical system stays protected from road debris and corrosion. Built for heavy loads, the deck features reinforced 16"

Crossmember Spacing for superior floor strength, along with Rub Rails and Stake Pockets that run the full length of the trailer for versatile cargo tie-down options. The build quality is further guaranteed by a 5-Year Frame Warranty, giving you long-term peace of mind.
