Price: $5,200.00

MSRP: $5,700.00

Description

Nexhaul 6x10 Bullet Enclosed Trailer – Compact Size, Full Strength Build

The Nexhaul 6x10 Bullet is built for those who want a compact trailer without sacrificing strength, durability, or presence. This isn't an entry level box, this is a Bullet, and it's built to handle real work while still looking clean and sharp on the road.

Wrapped in .080 engineered polycore with a semi screwless exterior, this trailer delivers a high end finish with the toughness to back it up. It holds up under daily use while keeping a smooth, professional look that stands out without trying too hard.

Built with 16 inch on center construction throughout, this trailer is solid from front to back. The 3/4 inch engineered floor backed by a 15 year warranty gives you a strong, reliable foundation for hauling equipment, tools, or anything else you need to move.

The drop axle setup keeps the trailer low for easy loading. The spring assist ramp door and 32 inch side door with flush lock give you quick access from multiple points. The V nose adds extra usable space and helps the trailer tow smoother and more efficiently.

Sitting on a 3500LB EZ Lube axle with radial tires, this trailer tows straight and steady. The one piece aluminum roof and aluminum tread plate stone guard protect it from the elements and road debris, keeping it working hard and looking good.
