STANDARD EQUIPMENT

Designed with the best and strongest materials to keep you safe, our "easy view" window grill headache rack not only protects but provides ample room to see when backing up your vehicle.

4" structural steel channel frame rails

Because we don't use roll-formed runners, our structural 4" channel frame rails are stronger and more durable than any on the market. They also prevent any rusting from the interior of the tube.

30,000 lb.-rated B&W gooseneck hitch with 7-way electrical plug

This is a best-in-class, independently tested gooseneck hitch that handles even your toughest hauls. It also contains a 7-way electrical plug to give you ample choices for your power-driven needs.

Aluminum side rail cap

CM's better-looking, strong aluminum side rail caps have a more finished approach and longevity that outweigh our competitors.

Aluminum cast insert for LED rear lights and tag

Modular sealed wiring harness

Our modular sealed wiring harnesses are resistant to corrosion, deterioration and pulling apart, meaning they can withstand the harshest conditions.

7-way round and 5-way flat electrical plug standard on rear tailboard

This standard feature provides quality results and allows you to hook on to any trailer.

24,000 lb.-rated B&W bumper pull hitch

CM's independently rated bumper pull hitch gives you best-in-class towing capacity, which is integrated into the entire frame.

These are the toughest and most durable work truck subframes.

LED Stop, turn, tail, back-up, and tag lights in skirt

CM's lights are brighter and use less power than conventional incandescent lights, so your stops, turns, and tag lights will be easily seen and recognized.

4 lockable, flush integrated toolboxes with chrome T-handle twist compression latches

Our recessed tool box doors provide maximum safety in our large boxes to prevent weathering of your tools and equipment. For security, the dual latches lock with a key and padlock loop when desired.

Angled fuel fill

Provides a shinier, and better-looking feature to your work truck, as well as a no-corrosion zone for all your in-and-out hauls.
