New 2027 MEB 18+4 Tilt Bed Equipment Trailer 14K
Standard Features:
14,000 lb GVWR
18' Tilt Bed
4' Stationary Front Deck
22' Total Usable Bed Length
Tandem 7K Axles
5-Position Adjustable Coupler
2-5/16" Ball Coupler
12K Drop-Leg Jack
Lockable Tongue Toolbox
Damper Cylinder Under Tilt Bed
Low 20" Deck Height
7-Round Electrical Plug
18' Tilt Deck
The main 18' deck section tilts toward the ground, allowing equipment to be driven directly onto the trailer without handling conventional removable ramps
That makes loading and unloading faster and simpler, particularly when you're moving equipment several times throughout the workday
Tilt trailers are especially useful for:
Skid steers
Compact tractors
Mini excavators
Landscaping equipment
Utility vehicles
Small construction machines
Cars and light vehicles
Equipment with low ground clearance
Ahead of the tilt section is a 4' stationary deck
That gives you a fixed section of trailer floor that remains level while the rear deck tilts
The stationary section can be especially useful for:
Attachments
Buckets

Implements
Toolboxes
Material
Equipment that benefits from a fixed front loading area
Combined with the 18' tilt section, you get a full 22' of usable bed length
Controlled Tilt With Damper Cylinder
A damper cylinder beneath the tilt deck helps cushion and control the movement of the bed as it lowers
Instead of allowing the deck to move completely uncontrolled under gravity, the damper helps provide a smoother transition during loading and unloading
That gives the operator better control and reduces abrupt deck movement
