Price: $4,800.00

Description

The RD is the most customizable bed in the CM lineup and the one most crews default to. It is a wide-open 11-gauge steel treadplate deck with 3/8" x 2" side rails and stake pockets — nothing in the way, so you build it out however the job demands. Independently rated B&W hitches handle gooseneck and bumper pull duty, and the whole unit is finished in EpoxiShield powder coat for long-term protection against the impacts, weather, and jobsite abuse that come with real work.
Standard features
11-gauge steel treadplate deck, fully open and fully customizable (3/16" deck optional)
4" structural steel channel frame rails — no roll-formed runners

3/8" x 2" side rails with integrated stake pockets
30,000 lb-rated B&W gooseneck hitch with welded ball
24,500 lb-rated B&W bumper pull with 2-1/2" receiver tube
One-piece steel tube headache rack with recessed LED lighting
Solid one-piece rear skirt with tapered corners for turning clearance
EpoxiShield powder coat system
Angled fuel fill and modular sealed wiring harness
Widest fitment range in the lineup — every pickup and cab & chassis configuration CM covers
