MSRP: $16,699.00

Description

The 2027 Wolverine 7 Series is Wolverine’s heavy aluminum car hauler, available in tandem and triple-axle configurations. It is built for contractors moving skid steers, tractors and machinery who want the payload advantage aluminum gives over a comparable steel trailer. Slide-in ramps, 4,000-lb D-rings and lifetime-warranty LED lighting come standard.

• 21K - GVWR on galvanized-steel axles with self-adjusting electric brakes and a breakaway switch
• All-aluminum double-hollow tube frame with 12" aluminum side rails
• Treated 7x34 wood-plank deck, 84" between the fenders

• Two 16" wide slide-in aluminum ramps that store at the front of the deck
• 2-5/16" A-frame zinc-plated coupler with drop-leg jack and poly wheel
• 4,000-lb bolt-through D-ring tie-downs and aluminum fenders
• All-LED lighting with a lifetime warranty and a 7-way connector
• Aluminum-alloy wheels on Load Range E radial tires
• Spare tire

Please give us a call for details and current trailer availability. Descriptions are subject to possible errors, so we recommend calling to verify all information.
