Description

Featherlite 3110 20' All-Aluminum Car Hauler / Utility Trailer — 9,600 LB GVWR
ALL-ALUMINUM | 20' DECK | 9,600 LB GVWR | LIGHTWEIGHT & VERSATILE
Looking for a premium all-aluminum car hauler or utility trailer without the weight and corrosion concerns of a traditional steel trailer?
Check out the Featherlite Model 3110 20' All-Aluminum Car Hauler / Utility Trailer, available from Great West Trailer & Truck — **Colorado's only Featherlite dealer.**
The Featherlite 3110 combines lightweight aluminum construction, impressive hauling capacity and Featherlite's reputation for premium aluminum trailers into an extremely versatile open trailer. Whether you're hauling a car, classic vehicle, side-by-side, UTV, ATV, lawn equipment or other recreational equipment, the 3110 gives you a spacious 20' deck while keeping overall trailer weight down.
ALL-ALUMINUM CONSTRUCTION
One of the biggest advantages of the Featherlite 3110 is its all-aluminum construction. Compared with many conventional steel car and utility trailers, aluminum construction helps reduce trailer weight while providing excellent corrosion resistance—an important advantage when towing through Colorado winters, mountain weather and treated road conditions.
Less trailer weight can also mean more of your available towing capacity can be devoted to the vehicle or equipment you're actually hauling.
20' DECK — CAR HAULER & UTILITY TRAILER VERSATILITY
With its 20-foot deck, this Featherlite gives you the versatility to haul much more than just cars. Great for hauling:

- Cars & Automobiles
- Classic & Collector Cars
- Muscle Cars
- Race Cars
- UTVs & Side-by-Sides
- ATVs
- Motorcycles
- Lawn & Landscaping Equipment
- Recreational Equipment
- General Utility Loads
- That versatility makes the Featherlite 3110 an excellent choice for someone who wants one high-quality aluminum trailer capable of handling multiple jobs.
- **9,600 LB GVWR**
- With a 9,600 lb. GVWR, the Featherlite 3110 provides substantial hauling capability while maintaining the advantages of lightweight aluminum construction.
- For customers comparing an aluminum car hauler vs. steel car trailer, trailer weight matters. Starting with a lighter aluminum trailer can provide a significant advantage in towing efficiency and usable payload while also eliminating many of the corrosion concerns associated with painted steel trailers.
- **WHY BUY A FEATHERLITE?**
- Featherlite has been building premium aluminum trailers for decades, and the 3110 continues that tradition with a trailer designed to be lightweight, durable and versatile.

- If you're searching for a trailer that you'll want to own for years—not simply the cheapest trailer on the lot—the Featherlite 3110 all-aluminum car hauler deserves a serious look.
