Factory-trained installation is available. Call to get a quote for your application. We offer 24-hour parts and service for BOSS equipment during winter weather events. Our well-stocked parts department insures quick and efficient turnaround on your repairs.

Take Your UTV to the Next Level with the 6'6" Steel V XT The 6'6" Powder-Coated Steel V XT is the ultimate plow for your full-size UTV, designed for tackling sidewalks, tight spaces, and rough terrain. Built with the same BOSS durability and performance as our full-size plows, this compact powerhouse delivers serious snow-clearing capability where larger plows can't go. Unlike traditional chain and pulley setups, the BOSS hydraulic system eliminates winches, chains, and pulleys—reducing maintenance and corrosion, so you stay operational in any condition. With a quick attachment to your full-size UTV, this plow transforms your summer sidekick into a year-round workhorse. Equipped with a full moldboard trip design, the 6'6" Steel V XT protects your equipment by allowing the entire blade to trip forward when encountering obstacles. This system absorbs impact, minimizes damage, and keeps you moving through any storm with confidence. Plus, an optional LED Headlight Kit enhances visibility, so you can dominate snow removal day or night. Whether you're clearing sidewalks, pathways, or hard-to-reach areas, BOSS is always there to BACK YOU UP.
