Description

2025 Toro Compact Utility Loader Attachments Soil Cultivator Attachment (23102)Soil Cultivator AttachmentOverviewThe soil cultivator is the ultimate attachment for soil preparation! This

incredibly versatile attachment can be used to cultivate and level soil as well as blend landscape materials, compost and fertilizer. This attachment will also bury debris such as stones, soil clods and grass. It transforms rough terrain into a perfect planting bed in one pass.Features may include:Offset Wire Mesh Rear Roller Eliminates ridges between machine passes, and ensures for a uniform seed bed. Creates dimpled surface for maximum seed germination and root penetration.High Filtering GrateThe grate permits only loose soil to pass through. Rocks, sticks, clods and debris are buried below the fresh tilled soil.Deep Soil CultivationTiller cultivates soil up to 5.5" (14 cm) deep for maximum root penetration and healthy turf. Contractor can choose optimal depth for seed bed preparation.
