Factory-trained installation is available. Call to get a quote for your application. We offer 24-hour parts and service for BOSS equipment during winter weather events. Our well-stocked parts department insures quick and efficient turnaround on your repairs.

Dress to impress with the sleek Stainless Steel BOSS DXT. Built to withstand the most demanding jobs, the Stainless Steel DXT delivers the long-term dependability you need. With rust and corrosion resistance, the stainless steel helps repel sticking snow, making your job easier.

Engineered for heavy-duty snow and ice management, the fully featured BOSS Stainless Steel DXT is your ultimate tool to tackle all things snow and ice. The patented dual-trip design offers the best of both worlds, combining the features of trip-edge and full-trip systems for enhanced protection. This technology provides high trip protection for larger obstacles and low trip protection for smaller ones, making it the perfect solution for tackling everything from manhole covers to frozen snowbanks. Outfitted with a long-lasting, durable base angle for extended wear resistance, built-in curb guards, and a patented snow catcher, the DXT is engineered for top-tier performance. Its trip-edge base acts as the cutting edge until it reaches the wear point, after which it can be easily replaced to extend the plow's life. Perfect for keeping paths clear when Mother Nature strikes, it ensures you're prepared to tackle any winter challenge.

Cold Front Technology - Cold Front Technology with a newly designed connector, merging Power/Ground cables and Control wires into one.

SL4 with ClearBeam - The low-profile aluminum housing and ClearBeam feature provide exceptional downward illumination, while built-in turn signals, park, warning, and accent lights enhance safety and style.

SmartTouch+ - Offers immediate, responsive control with a familiar design, eliminating delays and simplifying your plow operation.

SL4 L.E.D. HEADLIGHTS - 100% L.E.D. system with nearly double the light output of standard halogen systems

OPTIONAL D-FORCE - Improve your backdragging abilities with D-Force!

SMARTSHIELD PAINT - Sets the standard for supreme quality, corrosion protection, and lasting durability.

(category: 3/4-1 ton truck)
