Description

Cold Front Technology with a newly designed connector, merging Power/Ground cables and Control wires into one. The BOSS XT plow's flared blade wings and enhanced curl design throw snow higher and farther than conventional snowplows, while the full moldboard trip design helps prevent plow damage when an obstacles is encountered. The XT is designed to take on winter's worst with a heavy-duty push frame and center section. Available in poly, steel or stainless steel, the BOSS XT is a proven innovation from BOSS that is built to BACK YOU UP. Full Moldboard Trip Design helps prevent plow damage when an obstacle is encountered. Clearbeam sl4 uses DOT-compliant 100% LED lights and Ice Shield Technology to prevent snow and ice build-up. 1/2" x 6" Cutting Edge built using a AR450 wear plate providing extended wear resistance and comes with built-in curb guards and patented snow catcher. SmartLock Cylinders lock blades in place when back-dragging.

Factory-trained installation is available. Call to get a quote for your application. We offer 24-hour parts and service for BOSS equipment during winter weather events. Our well-stocked parts department insures quick and efficient turnaround on your repairs.

Unleash the strength of the powder-coated steel BOSS XT – the ultimate plow built for the toughest winter conditions. Featuring signature flared blade wings and an enhanced curl design, the Steel BOSS XT effortlessly throws snow higher and farther, giving you unmatched efficiency and control. Engineered for the toughest conditions, the XT’s full moldboard trip system absorbs impact by allowing the entire plow to trip forward when encountering obstacles, minimizing stress on both your equipment and vehicle. This innovative design ensures lasting durability and superior performance, so you can take on winter’s worst with confidence. With its heavy-duty steel construction and built-in impact resistance, the Steel BOSS XT is ready to withstand the most brutal snowstorms, delivering the reliability you need to Keep ‘Em Open for years to come.

Cold Front Technology - Cold Front Technology with a newly designed connector, merging Power/Ground cables and Control wires into one.

SmartTouch+ - Offers immediate, responsive control with a familiar design, eliminating delays and simplifying your plow operation.

SL4 with ClearBeam - The low-profile aluminum housing and ClearBeam feature provide exceptional downward illumination, while built-in turn signals, park, warning, and accent lights enhance safety and style.
