Description

When You Need Municipal-Grade Power, BOSS Has You Covered. Engineered for extreme snow removal, the BOSS HD+ Heavy-Duty Straight-Blade Plow is built to handle large-scale operations with ease. Designed for medium-duty trucks, it features an enhanced blade curl to minimize snow blow over the blade, ensuring maximum snow-moving efficiency. With a reinforced moldboard and rugged construction, the HD+ powers through deep, wet snow, giving you the strength and control needed for demanding conditions. The full moldboard trip system absorbs impact, allowing the entire blade to trip forward when encountering obstacles, reducing stress and minimizing damage. Plus, the Heavy-Duty Push Frame and Attachment Bar provide the durability required to face winter's toughest challenges. When it's time to Restore Order, you can count on BOSS to deliver unmatched performance.

SL4 with ClearBeam - The low-profile aluminum housing and ClearBeam feature provide exceptional downward illumination, while built-in turn signals, park, warning, and accent lights enhance safety and style.

Cold Front Technology - Cold Front Technology with a newly designed connector, merging Power/Ground cables and Control wires into one.

SmartTouch+ - Offers immediate, responsive control with a familiar design, eliminating delays and simplifying your plow operation.
