Price: $6,500.00

Description

The DigMaster DM200 is a compact mini excavator (roughly 1.5–2 tons / around 2,480–4,000 lb operating weight depending on configuration) typically powered by a Kubota twin-cylinder diesel engine (around 11.2–14 HP) with rubber tracks, a front dozer blade, pilot controls, and a hydraulic thumb. Note that if "e" refers to an electric version or a specific trim/listing, public listings primarily cover the standard DM200 models (and the DM150PRO-A / other DigMaster mini excavators).
Key Specifications (DigMaster DM200)
• Engine: Kubota diesel (commonly listed around 11.2–14 HP, such as the Z482 twin-cylinder).

• Weight & Dimensions: Operating weight around 4,000 lb (standard weight listed around 2,480 lb); transport width roughly 3 ft 8 in (44 in), length near 9 ft 11 in, height about 7 ft 6 in.
• Digging Performance: Maximum digging depth around 83 in, max digging radius around 128 in, max digging height around 112 in, and dumping height roughly 79 in.
• Features: Rubber tracks, front backfill/dozer blade (~43 in wide), pilot controls, auxiliary hydraulics, and a hydraulic thumb.
