The E-16 XL is the largest enclosed trailer the Air-tow line and comes preloaded with many features. It has 15’9? of usable deck space and can carry ups to 10,000 lbs. The front-end is extended beyond the regular deck that allows for a 15? shelf and an extra 36 cubic ft. to work with. The aerodynamic design of the front-end not only adds space but reduces air resistance and increases gas mileage. The back-end is also extended 16? to round out the total storage space at 838 cubic ft. Other standard features that set the E-16 XL apart from the regular E-16 include: self-locking rollup door, 2 LED interior lights and a 3/8? plywood interior lining. This trailer is also very customizable with options for E-track, X-tracks, nose cone and many more accessories.
