HV Series Dump Trailer
Midsota® HV Series Dump Trailers deliver unmatched durability and performance for heavy-duty hauling. Designed with both scissor and telescopic hoist options, these dump trailers handle tough jobs with ease. Featuring robust construction, self-adjusting brakes, and a variety of sizes, they’re built to last. With industry-leading innovation and customization, Midsota® ensures reliability and efficiency for professionals and homeowners alike.
You need a trailer that can handle the demands of your work and adventures. Midsota trailers are built for long-term performance, giving you the confidence to haul whatever, wherever.
Key Benefits
Available in Telescopic and Scissor Hoist
Choose between telescopic or scissor hoist options for optimized lifting power and control.Steel Toolbox and Chain Storage
Keep tools and tie-downs secure and easily accessible with a durable, lockable steel toolbox and dedicated chain storage.7 Gauge, One Piece Steel Floor
A heavy-duty, seamless 7-gauge steel floor stands up to the toughest loads and prevents weak points.Pallet Fork Holders
Built-in pallet fork holders provide convenient, secure storage for added job site efficiency.
Why Choose a HV Series Dump Trailer?
Overview
Midsota® HV Series Dump Trailers are built for superior strength, reliability, and efficiency, making them the ultimate choice for professionals and homeowners who demand high-performance hauling. Whether you're tackling construction, landscaping, or agricultural projects, these dump trailers deliver unmatched durability. Designed with both telescopic and scissor hoist options, they provide powerful lifting capabilities for smooth, controlled dumping. Engineered as a low profile dump trailer, the HV Series ensures easy loading and unloading, maximizing convenience and safety on the job.Available Models
The HV Series comes in multiple configurations to suit different needs, with sizes ranging from 12 to 20 feet in length. Customers can choose between scissor hoist for consistent stability or telescopic hoist for increased lifting efficiency. No matter the model, each trailer is designed for rugged performance, capable of handling heavy loads with ease.Key Standard Features
Midsota® HV Series dump trailers feature a 7-gauge, one-piece steel floor, providing extreme durability and eliminating weak points. A steel or poly toolbox and chain storage keep essential tools and tie-downs secure and easily accessible. Additional features include pallet fork holders for added convenience, self-adjusting brakes for enhanced safety, and an exclusive wiring indicator

module to simplify maintenance. The HV Series is available with 7,000 lb. or 8,000 lb. axles, offering a GVWR of up to 17,600 lbs. Each model also comes standard with 16-inch crossmember spacing, slipper spring suspension, and a roll tarp system with lock rod for secure load coverage.Available Options

Midsota® offers a range of options to customize your dump trailer for specific applications. Upgrade to hydraulic jack systems for effortless hitching and unhitching, or add a wireless remote for more convenient hoist operation. Side extensions provide increased hauling capacity, while swing side doors offer versatile unloading options. Additional lighting packages enhance visibility and safety, and upgraded tie-down systems ensure secure transport for any load. With multiple color choices and premium finish options, the HV Series can be tailored to meet both functional and aesthetic needs.
