Description

The Pro Series Drop Deck Equipment trailer is designed to enhance safety and efficiency by lowering the deck to the ground, eliminating the need for ramps.The minimal loading angle makes the Pro Series Drop Deck Equipment Trailer the preferred choice for a wide range of equipment, particularly low-profile machinery. This also removes the challenge of driving several feet off the ground with limited visibility, which can be a challenge with traditional tilt trailers.The 7-gauge textured floor provides a slip-resistant surface for enhanced safety. The large toolbox with built-in light adds ample storage for the pump assembly and other accessories. Plus, you get a spare tire carrier, 3/4? d-rings, oversized stake pockets, HD treadplate reinforced fenders, and more.
