Description

2027 Aluma 6310ESA-S-TG 5x10 Aluminum Utility Trailer – Solid Sides

Lightweight aluminum utility trailer with 12-inch solid sides, rear loading ramp, rubber torsion axle, and durable aluminum flooring.
Looking for a **2027 Aluma 6310ESA-S-TG aluminum utility trailer for sale near Wooster, Ohio**? This lightweight, single-axle utility trailer is an excellent choice for homeowners, landscapers, lawn care professionals, and property owners who need dependable hauling capability without the extra weight and maintenance of a traditional steel trailer.
Featuring a **63-inch-wide by 120-inch-long aluminum deck**, 12-inch solid aluminum sides, and a convenient rear loading tailgate, the Aluma 6310ESA-S-TG offers practical hauling space for lawn equipment, small ATVs, garden supplies, and general utility cargo.
Weighing approximately **440 lbs empty**, this compact aluminum utility trailer is easy to maneuver and built for everyday hauling.

Trailer Specifications & Standard Equipment

- **Year:** 2027
- **Manufacturer:** Aluma Trailers
- **Model:** 6310ESA-S-TG
- **Trailer Type:** Single-Axle Aluminum Utility Trailer

- **Rear Loading Gate:** 50.25" Wide x 39" Long Aluminum Tailgate
- **Overall Width:** 84.5" (7'0.5")
- **Overall Length:** 168" (14')

12-Inch Solid Aluminum Sides

The **Aluma 6310ESA-S-TG** features 12-inch solid aluminum sides that help contain tools, landscaping supplies, and smaller cargo.
Unlike open-rail utility trailers, the solid-side design provides additional containment while maintaining lightweight aluminum construction.
Benefits include:

- Helps contain smaller equipment and supplies
- Convenient for transporting bagged mulch, soil, and garden materials
- Additional side protection compared with open-rail trailers
- Corrosion-resistant aluminum construction
- Clean, professional appearance

All cargo must still be properly secured, and loose materials should be covered when necessary.

Lightweight Aluminum Construction

At approximately **440 lbs empty**, this Aluma utility trailer offers a lightweight alternative to many steel utility trailers.
The aluminum frame, extruded aluminum floor, and aluminum fenders help resist corrosion while reducing maintenance.
The 10-foot deck provides additional hauling space compared with shorter 8-foot utility trailers without requiring a much larger trailer.

Convenient Rear Loading Ramp

The **50.25-inch-wide by 39-inch-long aluminum rear tailgate** provides convenient loading access for compatible wheeled equipment.
This makes the trailer practical for transporting:

- Push mowers and compact lawn equipment
- Small ATVs and four-wheelers
- Dirt bikes and small motorcycles
- Garden equipment
- Landscaping tools and supplies

Always verify equipment width, weight, ground clearance, and ramp capacity before loading.

Rubber Torsion Axle & Towing Features

The **2,000 lb rubber torsion axle** provides independent wheel movement and helps reduce road vibration during towing.
Standard towing equipment includes:

- ST175/80R13 radial trailer tires
- Steel wheels with a 5 on 4.5-inch bolt pattern
- Easy-lube wheel hubs
- 48-inch A-frame aluminum tongue
- 2-inch ball coupler
- 1,200 lb swivel tongue jack
- LED trailer lighting
- Safety chains

What Can You Haul With an Aluma 6310ESA-S-TG?

This **5'3" x 10' aluminum utility trailer** is a practical choice for transporting compatible:

- Lawn mowers and landscaping equipment
- Small ATVs and recreational equipment
- Dirt bikes and motorcycles
- Farm and property maintenance supplies
- Garden tools and equipment
- Lumber and building materials
- Household items and general cargo

Its 10-foot aluminum deck, solid sides, and rear loading ramp make it versatile for residential and light commercial use.

Why Choose the Aluma 6310ESA-S-TG?

Lightweight Design: Approximately 440 lbs empty for easier maneuvering.
12-Inch Solid Sides: Help contain tools, equipment, and supplies.
Corrosion-Resistant Aluminum: Lower maintenance compared with painted steel trailers.
10-Foot Deck: Additional hauling space compared with smaller 8-foot utility trailers.
Convenient Loading: Aluminum rear ramp for compatible wheeled equipment.
Securement Options: Four tie-down loops and four stake pockets.
Quality Standard Equipment: Rubber torsion axle, radial tires, LED lighting, and swivel tongue jack.
