Price: $7,200.00

MSRP: $7,500.00

Description

The Nexhaul 7x14 Bullet Semi Screwless is designed for clean looks and dependable performance in a versatile size. With a smooth exterior and upgraded Bullet construction, this trailer delivers a refined finish without sacrificing durability.

Built with .080 engineered composite, the exterior holds its shape and maintains a straight, smooth appearance over time. It’s a noticeable step up from standard builds, giving you a trailer that keeps its look through real use.

The 16 inch on center construction throughout provides a consistent structure from front to back, while the 3/4 inch engineered floor offers reliable support for vehicles, equipment, or general hauling.

Dual 3500LB EZ Lube axles with electric brakes provide controlled, predictable towing. The rear ramp door with spring assist and ramp flap makes loading simple, and the 32 inch side door with flush lock and deadbolt adds convenient access.

Finished with a one piece aluminum roof, tread plate stone guard, and full LED lighting, this trailer is ready for regular use and longer hauls.
