Price: $6,695.00

MSRP: $7,380.00

Description

The Heavy-Iron Workhorse: 2026 Sure-Trac 7x16 14K Industrial Equipment Trailer

This isn't some lightweight homeowner trailer built for lawnmowers. This is a commercial-grade, overbuilt brute designed to haul real machinery. If you are loading skid steers, mini-excavators, compact tractors, or heavy materials on a daily basis around North Jersey, you need a trailer that handles the abuse without breaking a sweat.
With a massive 11,200 lb. payload capacity and an uncompromising 6-inch steel channel frame, this Sure-Trac 14K Equipment trailer is pure industrial muscle. No flex, no shortcuts, and absolutely no junk.

Weight Capacities & Dimensions

• GVWR: 14,000 lbs
• Curb Weight: 2,800 lbs
• Payload Capacity: 11,200 lbs
• Width: 7' (82" Between Fenders)
• Deck Length: 16' (14' Flat Deck + 2' Beavertail)

Technical Specifications

Axles (2) 7,000 lb. Heavy-Duty Slipper Spring Brakes
Frame 6" Industrial Steel Channel
Tongue 6" Steel Channel (Fully Wrapped)
Crossmembers 3" Steel Channel (16" On-Center)
Decking 2" Pressure-Treated Pine
Ramps 5' Heavy-Duty 4" Channel Stand-Up Ramps (Spring-Assisted)
Tires ST235/80R16E 10-Ply Radial Tires

Wheels 16" Heavy-Duty 8-Hole Steel Wheels
Jack 12K Drop-Leg Set-Back Jack
Tie-Downs (4) 1/2" D-Rings, Stake Pockets, and Full Rub Rail

Built for Real Abuse: Structural Highlights

1. Bulletproof 6" Wrapped Channel Frame & Tongue

The foundation of this trailer is a massive 6-inch steel C-channel frame. Sure-Trac doesn't stop the frame at the deck—the 6" channel tongue is fully wrapped underneath the structure all the way back to the axles. This massive backbone completely eliminates frame fatigue, twisting, and bending when walking heavy equipment up the ramps.

2. Commercial 7K Slipper Spring Axles

Most light-duty trailers use standard eye-to-eye leaf springs that wear out quickly under commercial loads. This rig features upgraded 7,000 lb. Slipper Spring Axles on heavy-duty 8-lug hubs. Slipper springs provide vastly superior articulation, smoother towing over potholes, and an extended lifespan under maximum payload conditions.

3. Premium Loading System: 2' Beavertail & HD Spring-Assist Ramps

• Low Loading Angle: The built-in 24" cleated beavertail drops the rear deck height, giving you a perfect, gradual loading transition for low-clearance scissor lifts or pavers.
• One-Handed Operation: The heavy-duty 4" channel stand-up ramps feature a dual-spring assist assembly. Heavy iron ramps that used to break your back now lift effortlessly with one hand.
• Adjustable Support Legs: The ramps come equipped with integrated, adjustable stabilizer legs. When loading a heavy skid steer on soft or uneven job site terrain, these legs brace against the ground to prevent the rear of the trailer from sagging and lifting your truck's rear wheels off the dirt.

4. Secured & Armored From Factory

• Tie-Down Versatility: Lock down your chain binders anywhere. You get four 1/2" D-rings welded to the frame, paired with full-length stake pockets and a heavy-duty rub rail running the entire perimeter of the deck.
• 12K Drop-Leg Jack: A commercial-grade 12,000 lb. jack comes standard. It’s set back to easily clear your truck's tailgate and features a quick-drop leg to save you time when unhitching at the job site.
• Industrial Finish: Completely armored in an advanced polymer powder coat that seals out moisture and protects your steel against North Jersey road salt, rock chips, and gravel.

The Verdict

The Sure-Trac 7x16 14K Equipment trailer is a premium commercial asset built for professionals who cannot afford downtime. It’s tough, it’s reliable, and it’s ready to make your operations more efficient from day one.
• Temporary License Plate: Included with all trailer purchases.
• NJ Residents: 6.625% Sales Tax applies at the time of purchase.
• Non-Residents: Pay sales tax at the time of registration in your home state.
• Pricing Note: Cash/Check price listed. A 3% processing fee applies to credit card transactions.

• Stock Images: Some photos may show optional accessories (like a mounted spare tire) not included in the base unit. Call the shop to confirm current lot configuration and availability!
