Price: $12,599.00

Description

The 2027 Stealth Cobra Base Snow Trailer is built for riders who want the key features where it counts, without paying for interior upgrades they may not need.

Built on a welded tubular aluminum main frame, this snow trailer combines lightweight construction with a 7,000 lb GVWR and tandem 3,500 lb brake axles. The 16" on-center floor, wall, and roof construction provides a solid foundation for hauling snowmobiles and gear throughout the winter.

A versatile ramp-door package makes loading and unloading easy, while the LIGHTLID translucent roof brings natural light into the trailer. The .080 screwless exterior, black Spider aluminum wheels, ATP protection, and white-out LED lighting give the Cobra a sharp, finished appearance.

Key Features

• 7,000 lb GVWR
• 3001lb Trailer Weight
• Tandem 3,500 lb Spring Brake Axles
