Description

This 2026 Homesteader 7 x 16 ft enclosed cargo trailer combines a clean black out trim look with practical features for everyday hauling. The spring-assist ramp door makes loading equipment straightforward, and flo-thru vents help keep air moving inside the trailer during transport. Dexter 3,500 lb axles with electric brakes on both axles provide dependable towing, and radial tires round out a smooth ride. The one-piece roof and V-nose front resist leaks and reduce wind drag, and the polycore exterior skin keeps the trailer lightweight and durable.
Inside, a 3/4-inch plywood floor and 3/8-inch plywood walls create a solid cargo area with 7 ft of interior height, and LED interior lighting keeps things visible after dark. A rear spoiler with integrated lights adds a finished look and extra visibility on the road. Finished in Black with a 7,000 lb GVWR, this Homesteader cargo trailer is priced at $8,199.
