Price: $1,050.00

Description

Jenkins Pallet Forks

The Jenkins heavy-duty, walk-through Pallet Fork carriage is constructed of 1/4” screen material with an industry leading 1 1/4” by 3” machined down top slider bar and a ½” lower slider bar. The slider rails are machined to move the forks easily with one hand. The forks are made in the USA and have a 5500 lb capacity.

The walk-through carriage is designed to allow the skid steer door to swing over the top of the attachment, making it easy to get out of the cab with the forks attached, and have as much roll back as possible for today’s cab forward machines!

Specifications

Carriage Width: 4' Wide
