Stock# SC109580

Model# F-TVC10220-100

Tube Steel Roof Bows and Wall Studs — Structural Integrity You Can Count On

Full tube supports offer strength, lasting rigidity, and stress resistance.

Beavertail and Four Recessed D-Rings — Low Load Angles, Secure Tie-Downs

The integrated beavertail eases ramp breakover while the four D-rings provide anchor points to keep vehicles locked in place.

Automotive Undercoat — Long-Term Corrosion Protection

Factory-applied undercoating shields the trailer’s underside from salt, moisture, and debris to extend its service life.

Color Matching Screws on Exterior Seams — Clean and Cohesive Look

Matched fasteners blend with the bonded VHB for a polished exterior finish
