Description

This 2024 Aluma 7812 6'6" x 12' aluminum utility trailer combines an all-aluminum frame with a wood deck for a lightweight trailer that still gives you a familiar, easy-to-repair hauling surface. Torsion suspension delivers a smoother ride than standard leaf springs, and the aluminum ramp makes loading mowers, ATVs, or equipment straightforward without adding much weight. Radial tires and a 2" coupler round out a simple, well-built trailer backed by Aluma's aluminum construction. With a 2,990 lb GVWR and 2,090 lbs of payload capacity on just a 900 lb empty weight, this Aluma 7812 is priced at $3,499.
