Description

The CM SK Truck Bed is a premium skirted steel utility body built for contractors, ranchers, service technicians, and fleet operators who need maximum storage, serious towing capability, and long term durability. With its 1/8" steel treadplate deck, 4" structural channel frame rails, and 3" channel crossmembers, the SK is engineered for heavy duty work and everyday commercial use.
Airport Trailer proudly offers the CM SK as part of our professional grade truck bed lineup, giving buyers a clean, finished look with the strength and functionality CM is known for. The SK includes

four integrated toolboxes, a skirted rear body, and industry leading B&W hitch components — a 30,000 lb gooseneck hitch and a 24,000 lb rear receiver hitch — making it one of the most capable and versatile work truck platforms available.
