Description

DESCRIPTION

Transform your off-road adventures with the Marlon SXS Deck, designed for truck boxes from 6.2' to 8'. This innovative deck includes two 10' ramps and a side loader assist for easy loading and unloading of your Side-by-Side or ATV. Tackle rugged terrain confidently and carry an extra machine or tow a trailer.

The standard deck accommodates SXS vehicles with a wheelbase up to 120”, suitable for most two-seaters and some four-seaters. For larger models with wheelbases up to 165”, an optional

extension is available. With an outside width of 76” and an inside width of 50”, it fits all factory SXS and trail machines. Enhance your deck with our optional toolboxes, sold as a set of four (two per side). These durable, powder-coated aluminum boxes install easily and feature lockable doors and watertight seals to keep your gear dry. Available in long (310-0107) and short (310-0108) versions, they maximize your truck bed space for any adventure.
