Description

XWB- -B975742
2027 NXG Truck Bodies XWB Truck Bed with Lots of Extra Storage

Will fit all 2003 to Present Rams, 2001 to Present GM’s , 2017 to present Ford, Dually’s this is only for Dual wheel Trucks that came with a Factory pick up bed

XCoat
NXG’s proprietary multi-stage cleaning and industrial-grade powder coating process delivers unmatched corrosion resistance and a durable, professional finish built for harsh environments.

XRack
Fully integrated headache rack system built into the body, not bolted on. Constructed from precision 3” × 4” steel tubing with mandrel bends and tube gussets welded on both the horizontal and vertical planes for increased strength and improved cab protection. Features built-in XLights with strobe capability for enhanced job-site safety and a clean, unified appearance.

XLights
Automotive-grade integrated taillights with stop, tail, turn, and backup functions, plus built-in amber strobe provision for maximum visibility and enhanced job-site safety.

XHitch
Frame-integrated towing system with a 24,500 lb receiver and a 30,000 lb gooseneck with upright safety chain keepers, both standard with pre-wired electrical connections and an emergency breakaway loop.

XSteps
Industry-leading rear step featuring a three-inch-wide design, wider than traditional two-inch steps, with non-slip grips that deliver safer footing and unmatched bed access.

Work Lights
Four high-density LED work lights located in the XRack and rear of the truck body provide improved visibility and safer operation in low-light and nighttime conditions

Toolboxes
Seven toolboxes, including a roll-out underbody Stash BoX, deliver NXG’s most versatile storage system. NXG-exclusive weather sealing, soft-open gas pistons, stainless steel hinges, and T-handle compression latches ensure superior sealing and long-term durability.

Tailgate
NXG-exclusive flush-mounted tailgate folds down for easy bed access, delivering a clean appearance and improved usability without protruding components.

Trailer Light Plugs

Automotive-grade 7-way trailer connection located at the gooseneck, with 7-way and 4-way 12-volt trailer connections at the rear receiver hitch for easy, reliable hookups.
