Price: \$895.00

Description

STEEL MESH FLOOR: Lighter than solid wood, this steel mesh floor enhances payload capacity while providing excellent traction. Its open pattern allows loose debris to fall through, making cleanup simple.

MESH SIDES: Mesh sides provide secure containment for bulk cargo, debris, and loose materials, reducing the risk of loss during transit and ensuring safe, efficient transport.

VERSATILE GATE DESIGN: The gate serves as a convenient ramp for easy loading and unloading or can fold into the trailer bed to accommodate larger cargo, reducing wind resistance during transport.

E-Z LUBE AXLE: Designed for convenience, the E-Z Lube axle allows straightforward lubrication bearings without the need for disassembly, ensuring smooth and reliable operation with minimal maintenance.

STRAIGHT TONGUE: The straight tongue design improves maneuverability in tight spaces and maximizes storage efficiency when the trailer is not in use.

Features

- Exterior Features
 - Steel Floor
- Jack & Coupler Features
 - 2" Coupler
- Safety Convenience & Electrical
 - DOT Approved Lighting
