LOW MAINTENANCE BLADE
The corrosion resistant 304 stainless steel moldboard never needs paint. A robust frame spreads impact across the blade to reduce wear on vital components.

- Full-length 2 in. cross tube
- Eight 1/4 in. laser-cut steel ribs
- 1/2 in. cutting edge

QUICK AND EASY ATTACHMENT
Mount and dismount in one minute or less with the new RapidLink(tm) Attachment System.

- Center-mounted drop foot props up your plow on any surface with the pull of a handle
- Hydraulically powered Jack Switch(tm) adjusts your plow's mounting height on the fly so it's easy to line up with your vehicle
- Connects to your truck with a single driver side foot pedal.

CLEAN, EVEN SCRAPE
The tubular steel Floating A-Frame features a sliding-pin connection so the plow contours the ground for a clean, efficient scrape. Outstanding performance at any mounting height.
SMOOTH TRIP EDGE ACTION
The moldboard has a 6 in. trip edge with two pairs of stress-optimized trip springs. The design helps you plow over hidden obstacles and uneven terrain without losing your load or damaging your truck or equipment.
