Description

Complete Truck plow Package
The SnowEx line of Light-Duty snow plows provides all the features of our professional grade plows in a package designed specifically for Jeep vehicles, SUVs and compact pick-ups. The plows meet vehicle weight requirements without having to sacrifice performance, allowing driveways and other tight areas to be cleared in no time. Backed by SnowEx 2 year warranty!

SCRAPE MAXXTrademark DOWN-FORCE KIT

Scrape MaxxTrademark down-force is an exclusive, standard feature that gives SnowEx truck plows the ability to apply downward force to bust through hard pack and maximize to-the-pavement scraping performance. Every SnowEx truck plow provides the Scrape Maxx feature to provide the right amount of force for clean plowing.

STORM SEEKERTrademark PLOW HEADLIGHTS

Available in both LED and Dual Halogen models, STORM SEEKERTrademark plow headlights are engineered and tested for maximum light output, performance and durability to keep you ahead of the storm.

FULL-TRIP MOLDBOARD

A full-trip moldboard with two coil springs helps protect you, your plow and your truck when striking obstacles.

VERTICAL REINFORCEMENT RIBS

Six vertical ribs support the back of the blade to add strength and protect against twisting.

STEEL CUTTING EDGE

A 5" hardened steel cutting edge provides long-lasting performance and delivers a clean scraping action.

EASY ACCESS COMPONENTS COVER

Hydraulic components are protected with a durable poly cover that is easy to remove for quick maintenance acces

HIGH-STRENGTH STEEL CONSTRUCTION

Plows are built with high-strength steel that is stronger and lighter than conventional steel.

FORMED BASE CHANNEL

The formed base channel is the backbone of the plow, built with high-strength steel and multiple angles for extra stability.

ROBOTICALLY WELDED HEADGEAR

Robotically welded headgear ensures quality and consistency on every SnowEx plow.

HAND-HELD CONTROLS

Choose between the POWER GRIPTrademark control with backlit buttons or the compact joystick control. Both feature power "on" and float LEDs and are FLEET FLEX system enabled. An intuitive hand-held controller makes it easy to raise, lower and angle the blade or wings at the touch of a button. Custom hydraulics, designed and produced in-house to maintain quality control, provide excellent maneuverability in the field. And a responsive direct-lift system aids in efficient stacking and transport.

AUTOMATIXX ATTACHMENT SYSTEM

The Automatixx attachment system provides fast and easy snowplow hook-up that can all be handled from one side of the truck.

DIRECT LIFT

Direct lift system gives the plow a responsive full range of motion for efficient stacking and transport.

POWERCOAT FINISH

Our high-performance, multi-stage powder coat system provides a long-lasting, maintenance-free finish.

FLEET FLEX ELECTRICAL SYSTEM

The FLEET FLEX electrical system provides complete fleet interchangeability. Any SnowEx plow can be used on any truck.
