Price: $1,000.00

Description

BOSS TGS85 BROADCAST SPREADER
The SR MAG features the all-new rear-mounted poly TGS85 broadcast spreader for an added

layer of ice control performance. The spreader comes equipped with 1/8 horsepower motor and stainless steel hardware. TGS85 is conveniently mounted on the back of the SR MAG to allow for easy filling and can accommodate up to 50 pounds of de-icing material. The TGS85 enables an operator to spread de-icing material in more significant areas in a 90-degree pattern to the left rear of the machine. This new attachment is available for the SR MAG and existing Snowrator vehicle.
