Equipped as Colorado Law requires with 4 brakes and breakaway kit. Two, 3500Lbs Dexter E-Z lube axles, the kind that you just grease with a grease gun. Built with super strong bulldog style 7,000 lbs coupler. Built with steel diamond plate over the dove tail for added protection. Lights, chains, and stow away ramps included. Wood Deck with 2 foot steel dovetail. Some brands use wood on the dove area and in my opinion that is a poor choice, if you have broken and damaged cars that is the area they tend to rub or drag and wood just will not hold up. At least 82 inches between fenders. I PREP MY TRAILERS BEFORE SALE Pre-tested, extra grounds added for superior operation of lights, brakes and equipment. Pre-inspected, wheels torqued to specification. Title work guaranteed to you with clean clear Colorado title. Vin inspection completed when needed, no charge.
