Description

Minor Hail Damage
Built to Perform
Whether you're hauling gear for work or adventure, the Tremor Cargo Trailer is engineered to deliver. It’s a dependable enclosed trailer built for daily use and long hauls, offering the strength,

protection, and clean styling you need to get the job done right. This trailer was made for those who want more from their cargo trailer—more reliability, more efficiency, and more confidence on the road.

Practical Where it Counts

Everything about the Tremor is designed to improve your experience. The bonded exterior panels not only look great but also stay quiet in transit. The undercoated frame adds rugged protection from the elements, while thoughtful upgrades like the plug connector and chain holders help eliminate hassles when it's time to hook up and roll out. Additionally, every Tremor trailer from 7-wide (tandem) and up features a standard, 84" interior.

Flexible for Any Use

From contractors hauling tools to hobbyists transporting motorcycles or gear, the Tremor adapts to your needs. The spacious interior can be easily customized, and the tongue extension gives you greater stability when hauling heavier loads or towing with larger vehicles.

Confident Ownership

With its durable construction and attention to detail, the Tremor delivers year after year of dependable use. It's an enclosed cargo trailer that works hard, looks sharp, and tows with confidence—whether you're heading to a jobsite or setting out on the open road.
