Price: $12,499.00

Description

- General

Total Fuel Capacity: 9.5 gallons
Drive Tires: 24? x 9.5?-12? (48? and 52?) / 24? x 12?-12? (61?)
Caster Tires: 13? x 6.5?-6?, flat-free
Seat: 4-point iso-mounted mid-back mounted on operator-suspension platform

- Drive System

Drive System Type: Dual Pump and Motor
Pumps: Hydro-Gear 12 cc
Motors: Parker 14.5 ci
Forward Ground Speed: 12 mph
Reverse Ground Speed: 5 mph
Parking Brake: Foot-operated pedal

- Deck

Cutting Widths: 48?, 52? and 61?
Type: Velocity Plus™
Cutting Height: 1? to 5? in .25? increments
Deck Lift: Adjustable foot-operated pedal
Construction: Tri-plate cutter deck constructed of 3 steel plates totaling nearly 1/2? of steel. Reinforcement plates at cutter deck spindles.
Spindles: Cast-iron housing with tapered roller bearings.
Blade Engagement: Ogura GT3.5 (250 ft lb). Adjustable air-gap for extended life.

- Velocity Plus Cutter Decks

The envy of the neighborhood
Scag® cutter decks have always given our competition a serious case of deck envy. Many try to duplicate the performance, but none can match it. The Velocity Plus™ cutter deck is an outstanding performer and delivers beautiful results.

The Velocity Plus™ Cutter Deck provides the unmatched power, precision and performance professionals demand. This revolutionary deck design delivers high-velocity discharge plus a beautiful manicured cut, even at faster ground speeds. A redesigned cutting chamber and massive discharge opening provide even greater cutting performance with maximum clipping dispersal in any conditions.

Strength — Scag’s tough cutter-blade spindles and Tri-Plate construction ensure solid performance and long life. A replaceable trim-side wear pad protects deck from damage.

Productivity — An extra-large discharge opening, paired with the Turbo Baffle, enhances discharge for even clipping dispersal.

Flexibility — The Velocity Plus cuts everything from fine grasses to tough weeds. The Custom-Cut™ Front Baffle System allows you to customize the deck to your individual conditions for even more productivity and higher performance.

- Kawasaki FT Series Engines

Commercial-Grade Power
The new Kawasaki® FT Series engines with patented Vortical air filtration blaze new trails. Kawasaki® FT Series engines are designed and built to handle heavy loads. The Vortical air filtration system muscles out grass and debris while large, easy-to-access integrated clean-out ports amp up your efficiency and keep you cutting.
Other features include:
90° V-twin
High-efficiency, centrifugal air intake system
Dual-element air filtration with reinforced filter
Large, easy-to-access integrated clean-out ports
Pressurized lubrication system
Electronic spark ignition
Automatic compression release
Internally vented carburetor with fuel shut-off solenoid
Cast-iron cylinder liners
