Description

SD Low Profile Dump

The Standard Duty Low Profile Dump Trailer is a versatile and efficient solution designed for those who need reliable performance without the heavy-duty weight. Ideal for use with half-ton pickups, this trailer offers excellent maneuverability in congested areas, making it perfect for residential or light commercial work where space is limited. Despite being a lighter alternative to the Heavy Duty Low Profile series, it doesn't compromise on quality or strength.
With a payload capacity of up to nearly 7,000 lbs., this trailer is built to handle a wide range of tasks, from hauling landscaping materials to small-scale construction debris. Its low profile design makes loading and unloading easier, while maintaining stability on the road. This trailer comes packed with user-friendly features to make your workday more efficient. It includes a Combo Barn Door Spreader Gate, which offers versatility in how you unload materials, whether you need to spread gravel or dump large loads. The ramps, stored conveniently under the bed, make it easy to load equipment such as small tractors or other wheeled machinery.
