The Multi-Purpose, Two-In-One Drop-Deck & Dump Trailer
The widely popular 3D (**D** rop- **D** eck & **D** ump) model is the world's only trailer of its kind -- offering the dual-purpose flexibility of being both a drop-deck and dump trailer all in one heavy-duty vehicle. With a full 149? internal deck length and 74? deck width combined with a 10,000lb equipment capacity (8,000 dump capacity), you can fit most any piece of equipment to handle just about every job, large or small. The Airtow 3D takes up half the yard space with none of the maintenance issues of two, other equipment and dump trailer combinations.
The **"3D Series -- Drop-Deck & Dump"** trailer is everything you loved about the ground-level loading, Airtow Trailer but with the added benefit of a full, dump feature. It's the only work trailer you'll need because it will handle every part of your job!
FEATURES
