Description

Take your show on the road with this 2026 ATC Pro 300 Stage Trailer, a 24 FT mobile stage platform built for bands, promoters, churches, and event production companies who need a professional setup that travels. The drop down side stage door transforms this enclosed trailer into a fully functional performance stage in minutes, while the 21 FT power awning extends coverage over the crowd or the crew.

Built with a full perimeter aluminum frame and screwless sides for a clean, durable exterior, this Pro 300 rides on a spread dual axle configuration with 5,200 lb axles, brakes on both axles, and EZ lube hubs for easy maintenance on the road. Four 5K scissor jacks provide a stable, level stage platform at every stop, and the gray rubber coin floor stands up to heavy foot traffic show after show.

This trailer comes generator-ready, with a generator box on the tongue and full generator prep so you can run sound, lighting, and power needs independently at any venue. A 7-way truck plug and 16 inch on-center construction round out a trailer built to handle the demands of a busy touring or event schedule. With a GVWR of 9,990 lbs and a payload capacity of 4,440 lbs, this Pro 300 is ready to get to work. Originally \$55,999, it's available now at \$49,999. Contact Rock's Trailer Sales in Grove City today and reference Stock #185784 to schedule your inspection or reserve this ATC Pro 300 Stage Trailer before it's gone.
