Description

This 2026 Lamar Trailers 83 in x 22 ft equipment trailer is built for contractors who need serious capacity in a deck long enough to handle bigger machinery. An 18 ft deck plus a 2 ft dovetail gives you a full loading zone, and 24 in wide spring-assist ramps make loading skid steers, compact tractors, and other equipment fast and manageable. Dual 7,000 lb axles support a 16,000 lb GVWR with a massive 12,920 lb payload capacity, and 16-ply tires are rated to handle that weight reliably trip after trip. 16 in on-center cross members reinforce the deck against flexing under heavy point loads, and a sealed wiring harness protects the electrical system from moisture and road grime. Removable fenders simplify maintenance and loading of oversized equipment, and stake pockets paired with four D-rings give you multiple tie-down configurations. A 10,000 lb tongue jack makes hitching manageable even at a loaded tongue weight, and the 2 5/16 in adjustable coupler fits a wide range of tow vehicles. Finished in gray, this Lamar equipment trailer is built for buyers who need genuinely heavy-duty capacity.
