Description

The BEAST Dual Telescopic Dump Trailer

Built for extreme hauling, The CAM Superline® BEAST Dual Telescopic Dump is a high-performance dump trailer designed to handle the most demanding jobs. Engineered for professional-grade use, this heavy duty utility trailer features a rugged design, advanced hoist

technology, and intelligent storage and loading solutions.

Key Benefits

Dual Telescopic Power Up/Gravity Down Cylinders – Maximizes Lift Efficiency and Reliability

Get fast, powerful dumping with enhanced control on heavy loads and more dumping cycles per charge.

Triple-Acting Tailgate with Chains – Delivers Flexibility for Every Unloading Task

Use as a spreader gate, barn doors, or pickup style tailgate.

Heavy-Duty 7-Gauge Floor – Resists Dents and Deformation

Ideal for loading abrasive or dense materials without compromise.

Rear Stabilizer Legs – Provides Added Stability During Offloading

Improves safety and reduces trailer movement when you're loading heavy equipment.

Integrated Tarp Shroud and Tarp Kit – Secures Your Load on the Road

To make sure your load doesn't end up in the road while you're hauling, simply cover it with the integrated tarp.

Storage Tray Under Dump Bed – Keeps Tools and Straps Neatly Stored

Theft-proof, smart organization built into every jobsite trip.

Why Choose a New The BEAST Dual Telescopic Dump Trailer?

Overview

The BEAST Dual Telescopic Dump trailer by CAM Superline® redefines durability in the dump trailer category. Outfitted with dual telescopic hoist cylinders, this trailer achieves a superior dump angle and lifting power for large or dense loads. The combination of a 7-gauge floor, structural channel crossmembers, and a reinforced tube frame makes it a true workhorse ready for punishing conditions.

Available Models

The BEAST is offered in multiple configurations: 12', 14', and 16' bed lengths with GVWRs from 12K to 16K. Gooseneck versions rated at 15.4K and 17.6K GVWR are also available for those requiring greater hauling control. Each model features the same 82" interior bed width and robust 24" side walls to maximize capacity.

Standard Features

This trailer comes equipped with a full range of professional-grade standard features, including slipper spring suspension, tread plate fenders, sealed wiring harness, LED lighting, a 12K bolt-on drop leg jack, and a triple-acting tailgate with chains. The deck height is a low 29", supported by heavy-duty greased or oil-bath axles depending on the model. Each unit includes a Zip® Breakaway system, mesh tarp kit, a remote-control-operated hoist, and a spare tire mount for added convenience.

Options

Upgrade your BEAST trailer with a variety of high-performance options. Choose between 15.4K and 17.6K gooseneck models for increased payload control. Add a 48K pintle hook for fleet integration, a hydraulic jack for faster hookup, or mud flaps to protect against road debris. You can also equip a pallet fork carrier for enhanced jobsite versatility.
