*The Diamond C FMAX210 gooseneck with Max Ramps is a heavy-duty trailer built for folks who need real hauling power but still want something simple to use every day. With a 25,000 lb GVWR and tandem 10K dual-wheel axles, it's got the muscle for big tractors, skid steers, and heavier equipment without any trouble. The Max Ramps are wide, solid, and spring-assisted, so you're not fighting them every time you load up—just a smooth, steady drive-on. It's got that low deck height that makes loading easier, and the gooseneck setup pulls straight and stable down the road, even with a full load. Built on Diamond C's engineered beam frame with a tough wood floor and heavy-duty components, this is the kind of trailer you can count on to show up and work hard day after day.*
