**Price: $12,995.00**

## Description

The PJ DM 16’ high side dump with a scissor lift is built for folks who need a tough, dependable dump trailer that can handle heavy loads without making a mess of the job. Those high sides give you plenty of room for hauling brush, gravel, mulch, firewood, or demolition debris, so you can load more and spend less time making trips back and forth. The heavy-duty scissor lift gives it strong, steady lifting power and keeps the bed balanced when you’re dumping a full load, even on rough ground. Built with a solid steel frame and made for real work, this trailer is tough enough for farm use, construction jobs, and everyday hauling without feeling overbuilt or complicated. It pulls smooth behind the truck, loads up easy, and is the kind of dump trailer you’ll find yourself using for just about everything once it’s sitting in the yard.
