Description

The 22' Deckover Tilt Equipment Trailer is a heavy-duty, full-width deckover tilt trailer designed for hauling larger equipment, machinery, and materials with maximum deck space and loading flexibility. Featuring a 22' full-length tilt deck, this trailer allows for smooth, ramp-free loading, making it ideal for skid steers, tractors, and other heavy equipment that requires easy drive-on access.

Built with tandem 7,000 lb. Dexter electric brake axles and a spring suspension system, the trailer delivers dependable towing stability, strong load capacity, and controlled braking performance under demanding conditions. The deckover design provides a wide, unobstructed deck surface, improving versatility for oversized or wide equipment loads.

Additional features include a heavy-duty 2-5/16" adjustable 14,000 lb. bumper pull coupler for secure towing, a built-in winch plate for added loading capability, and a full-size divided toolbox upgrade for enhanced storage and organization. Finished in durable black powder coat, this deckover tilt trailer combines strength, functionality, and a clean professional appearance built for serious work.
